To do:
- ❏ *Layout (UI)*
- ❏ *Logic (Controller, ViewModel, etc.)*
- ❏ *API calls*
- ❏ *Bindings*
- ❏ *I18n*
- ❏ *Animations*
- ❏ ....

I used to draw this whole thing manually everytime I develop a new app screen, so thought may be usefull for others (you) as well.
It can be improved, just let me know: http://marcoscobena.com. Thanks in advance!
